We charge a nominal service fee to handle applications. However, we understand that some students may have limited budgets but still need support; that's why we also offer free assistance in certain cases.

Please note that admission decisions for scholarship programs are made solely by Chinese universities, and payment of a service fee does not guarantee admission.

Our role is to provide **professional, transparent, and well-documented evidence** to help you secure the best possible university placement in China while saving time and avoiding unnecessary issues throughout the entire process.

IMPORTANT ADVISORY FOR STUDENTS

Be aware that some agents falsely claim to offer guaranteed admission for Master's or PhD programs under fully funded scholarships. In reality, no agent or organization can guarantee admission or funding; these decisions are made solely by the universities and scholarship committees. Always verify information through official university channels and trusted sources.
